Monthly Progress Report

CeG CENTRE FOR e-GOVERNANCE e-Enabling Government	**1-June-2025 to 30-June-2025**	**KARNATAKA WEBPORTAL**
Name	U Shashanka	
Name of the reporting Officer	**Smt. Nandini P M** **Project Director, Web Portal**	
Description of work	**Junior Developer**	
Last Month planned activities (List the activities in bullet form in detail)	• Meeting Compliance Portal.	
Accomplishment in the Month	**User Management System Implementation:** • Developed a robust user management module enabling secure login, registration, and role-based access control. • Roles configured: **District Commissioner (DC)**, **Department Users**, and **Chief Secretary (CS)**, each with customized access and data visibility. **Admin Panel Development:** • Designed and developed an intuitive admin panel for managing users, roles, and system configurations. • Provided features to add/edit users, assign roles, and monitor issue allocations to ensure smooth administration. **Data Handling Scripts:** • Created efficient backend scripts to **import and dump large volumes of compliance-related issue data** into the system. • Ensured that the data was accurately **mapped to respective DCs and Departments** based on geographic and functional

attributes.

Role-Based Issue Allocation and Filtering:

- Configured the portal such that:
    - **DC Role** users can only view and manage issues assigned to their specific district.
    - **Department Role** users can only access issues tagged to their department.
- This setup helped streamline task responsibility and avoid cross-access of unrelated data.

Chief Secretary (CS) Dashboard with Consolidated View:

- Developed a comprehensive CS dashboard displaying a **consolidated report of issues** raised across all districts and departments.
- Enabled high-level oversight and quick identification of pending issues or bottlenecks.

Export to Excel Functionality:

- Integrated an **Excel export feature** in the CS dashboard, allowing Chief Secretary users to download summarized issue data and rankings for offline review and sharing.

User Performance Ranking System:

- Implemented a **ranking mechanism** for both DC and Department users based on their compliance performance.
- Rankings are calculated and displayed in the CS dashboard to encourage accountability and performance tracking.
-
